# Are we on the same page?

Smart and (cheekily) funny: **BOOKMARKS** peep out from the top of the book to say: This is your page, you've reached the right one here! They'll turn even the driest book into a joy to read. The **BOOKMARKS** are coming:

**DUCK** - for everyone who just thinks ducks are so cute. Guaranteed to keep cheeky mouths shut.

**WHAWHAA** - so pink we can hardly call it a dog but don't worry, he only wants to play

**CAT** - It may be black but it's good luck for every book. Not just for cat lovers.

# Something so small can be so big.

In terms of format, the multitasking ballpoint pen is tiny, and can fit anywhere and everywhere. In your shirt pocket, in a small notebook, even in your wallet. But despite this: nobody will cross it. Because of its functions they make CONSTRUCTION LILPUT a giant. And it has everything necessary to make a real CONSTRUCTION piece: a centimetre and inch ruler, slotted/Phillips screwdriver, stylus, and black lead, including 2 replacement refills.

In matte black, blue, red, silver, titanium, yellow. The stylus is always in the base colour.

(<https://en.wikipedia.org/wiki/Touchscreen>)

# A bit more.

With its imprinted tyre tread, CONSTRUCTION PROFIL+ shows off what it can do. Measure the depth of tyre treads - of course. In addition, the multitasking ballpoint pen features a ruler (cm), a slotted/Phillips screwdriver, a spirit level and a stylus. On top of this, there's a second bit with a hex key (1.5mm). With black lead, made of brass, printed in black and silver.

## Fancy another one?

This key chain with its micro-multitasking ballpoint pen has always been versatile – with all its different rulers and screwdrivers. Now it's got two additional bits on board: for measuring tyre tread depth and for hex screws. The highlight: they are housed in a small cylinder on the keyring. The finish, in brushed antique gold or copper, is also new.

# Responsive.

TEN is the outcome of combining excellent design with Far-Eastern politeness. Sophisticated spring mechanisms mean that the credit card case is highly responsive when the silicone ribbon is untied – cards automatically move upwards out of the protective aluminium shell. The minimalist design language of the case originates from ten Design Stationery, an internationally renowned institution. TEN was awarded various design awards in 2016 and 2017. In matte dark grey or gold for approx. 9 credit cards. With integrated readout protection for RFID chips.
