Refined understatement is often the best way to achieve your goal - especially if you have this LED torch on your team. ECO BEAM is very small when it is in your pocket, yet it boasts an incomparable 6-fold zoom for adjusting the beam of light. The miniature light is also a big deal when it comes to sustainability: its built-in rechargeable battery can be recharged again and again using the USB charger cable.

Black Beauty

Bulli goes smartphone! The legend lives on and drives across your desk as a matt black tabletop vehicle. With its powerful friction motor the Bulli T1 brings back a long-forgotten driving experience and way of life. Today its comfortable features include: pen holder, magnet, 5 paper clips and plenty of space for business cards. Plus an enlarged stowage compartment e.g. for the current iPhone 6. The endearing charm of the old world and the technical fascination of the new - close enough to touch. With an elegant, matt black finish - a confident eye-catcher amidst all the normal office accessories.

Always at hand

30 years of the LUNCH BOX. The aluminium lunch box has been a practical, presentable everyday item for ages. Used for generations - for health and well-being. Not simply a lunch box - this aluminium box is also ideal for storing tools, small change, screws, sewing supplies and other small objects. What do plasters, gummy bears, do-wels, screws, hair ties, cellotape and tweezers have in common? You don't find them when you need them. The First-aid-box puts an end to it. It's small enough not to get in the way yet big enough that you don't lose it and it's cool enough to look good when placed on any shelf. For that matter you can also fit aspirin in.

Don't waste a drop!

WINE@8 increases the enjoyment of a good drop twofold. Firstly the metal ring with felt on the inside catches unwanted drops. Secondly, the silicone cork extends the drinkability of opened bottles, even if the bottle cork no longer fits. WINE@8 - another good idea from TROIKA.
